# Microsoft Word 2019 - Fundamentals

**Course Code:**

ASK9WB

**Course Duration:**

2 days, 9.00am - 5.00pm

**Course Fee:**

\$420 (\$449.40 Inc. GST) per participant.

No SDF grant

**Course Delivery Mode:**

Home Based Learning

## Course Synopsis

Have you glanced around your surroundings and found yourself spotting all types of printed media, i.e. banners, brochures, pamphlets, reports, notes, books etc. with words on them staring back at you? You might be wondering, how did all these documents initially come into existence? There is a high chance that these documents originated from Microsoft Word, a simple and popular word processing program, that can be used to create workplace, educational and personal documents to communicate ideas at work and school.

There is a wide variety of applications for Microsoft Word when it comes to creating documents. Thinking of creating a letterhead for your official documents? Microsoft Word can do it for you and allow you to insert your logo and watermark. Need to create your sales invoices, employment letters, receipts, Standard Operating Procedures (SOPs) documents, legal contracts, pay slips? Microsoft Word can do it for you. Or maybe you need to send out an invitation letter to thousands of your guests? Microsoft Word has a mail merge feature that can help you blast out your invitation to all your guests at a fraction of the time you would take to send the invites individually.

## Course Objectives

In this 2 day course, you will learn how to create, save and close documents, edit text, format documents, enhance them with WordArt, SmartArt, Charts, Pictures, Tables and mail out your work with the mail merge feature. You will be ready to work confidently to create a variety of documents in proper layouts and formatting for tables, paragraphs, sections, headers, and page numbers for professional use.

# Course Outline

---
