Course Synopsis

Do you frequently write reports, create forms, work on capstone projects, dissertations or compile lengthy documents? If you do handle these documents more often than not, our 'Microsoft Word 2019 – Advanced' course is for you.

In this 1-day course, you will learn how to leverage on more complex word processing features to improve your productivity when handling multiple documents and creating long documents and forms.

The advanced formatting features taught can also help you to enhance the professional look and feel of your documents. You will also learn how to work with various themes, styles, document templates, create forms and format outlines, long documents and references.

Course Objectives

At the end of the course, you will be able to:

- Apply various Word Styles to your documents
- Insert Table of contents, picture captions and section breaks into your documents
- Create an index and apply appropriate referencing techniques (i.e. footnotes, endnotes, citations, bibliographies) to your documents
- Add content control in your forms to make it more convenient for your target audience to fill in information
- Use the master document and subdocuments to streamline the final document compilation process
