Course Synopsis

Grammar is made up of rules that allow us to organize our words and sentences into coherent, meaningful language. In business, correct English grammar is essential in communicating effectively, in both speech and writing.

The Grammar for Effective Business Communication course highlights the usage problems associated with contemporary grammar. It focuses on the essential aspects of English grammar that writers are concerned about.

The course also addresses the three issues underlying all errors of grammatical usage: the idea of Standard English, the effects of language change on English grammar, and the effects of language attitudes on our perception of "correct" English.
